#### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: please cancel claims 14-48.

#### *Election/Restrictions*

2. Applicant's election of Group 1 in the response is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

#### *Allowable Subject Matter*

3. Claims 1-13 are allowed.

4. The following is an examiner's statement of reasons for allowance: There was no prior art found that teaches or suggests a composite sheet wherein the first layer is made of reinforcing fibers impregnated with a thermoplastic resin and the second layer is a nonwoven and partially embedded with the thermoplastic resin of the first layer; and wherein the thermoplastic layer has a lower melting point than the fibers of the nonwoven mat.

The closest prior art appears to be that of Matsuda et al. (USPN 5316834) however both layers are resin impregnated, and the mechanical bond formed from Applicant's claim are not seen in the disclosure of Matsuda.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
